

CLARIGE Partners

Independant Operating Partners for mid and small caps

CLARIGE Partners

The genesis of Clarige originated from a meeting that took place amid a restructuring and carve-out project of a private equity-backed GreenTech startup in Paris in 2020.

During this endeavor, it became apparent that there was a pressing requirement for specialized services tailored to private equity-backed companies. These services aimed to serve as external appointed operating partners, facilitating the alignment of interests among stakeholders and acting as strategic enablers.

Our Target
